PUC Berhad's Q4 2018 Financial Results Show Continuing Growth Through Strategic Acquisitions, Stronger Core Businesses

Last update: 01/03/2019

KUALA LUMPUR, March 1 (Bernama) -- ACE Market-listed company, PUC Berhad ("PUC") on 28 February 2019 announced its financial results for the fourth quarter of 2018 ("Q4FY2018") recording revenue of RM12.3 million for the period; and revenue of RM52.5 million for the full financial year ended December 31, 2018 ("FY2018"). This signalled a **21.9% improvement in revenue for FY2018** as compared to last year ("FY2017"), which posted revenue of RM43 million for the financial year ended December 31, 2017.

In Q4FY18, revenue reached RM12.3 million, up by 50.5% from the immediate preceding quarter ("Q3FY18") of RM8.1 million. This was driven by the higher demand for advertising and media services during the year-end festive seasons and the recovered renewable energy contribution from downtime that caused a lower revenue base in Q3FY18. Together with the net share of contribution from associated companies, profit before taxation improved by 270.7% in the current quarter.
